MEMORANDUM

**SUBJECT:** Archive Determinations on "deferred to RCRA" sites

**FROM:** Monica R. Tonel, SAM *Monica Tonel*  
Site Assessment and Cleanup Unit II

**TO:** CERCLA FILE

The purpose of this memo is to document the decision made to archive a number of sites with "deferred to RCRA" decisions recorded in CERCLIS. This decision is in accordance with suggested guidelines from EPA Headquarters, memo dated July 6, 1995, which states:

"In general, sites deferred to the RCRA Subtitle C program based on the last completed site assessment event and which do not have other Superfund interest are candidates for archival."

"Sites which will be addressed under RCRA should have Deferred decisions recorded at the appropriate site assessment event and should also be archived (by definition, no further Superfund interest should exist at these sites)."

"The Regional Superfund and RCRA programs should work together when making this determination."

In accordance with the above and based on site-specific file reviews as well as discussions among RCRA and Superfund staff, the following sites have been added to the Archive List.

**ALASKA**

**\*: denotes EPI site.** Environmental Priorities Initiative, which ended in FY92, was developed in order to use Superfund resources and expertise to assess certain RCRA facilities, storage and treatment facilities, and closed and closing incinerators. The intent of the EPI was to assist RCRA in its prioritization of the sites that it needs to address under Corrective Action. In accordance with Headquarter's guidelines, the event qualifier "D" was assigned to all assessments completed under the Environmental Priorities Initiative.

MEMORANDUM

SUBJECT: Changes to CERCLIS

FROM: Monica Rolluda, Site Evaluation Section *MRolluda*

TO: Mike Slater, Resources & Analysis Section

As you've probably already heard, EPA Region 10 has transferred all "no further action" CERCLA sites from the CERCLIS list to an archive list. Recently, EPA Headquarters requested that "deferred" sites be placed on the archive list as well. Hence, my request for your assistance.

I have attached a list of CERCLA sites that have been deferred to the RCRA Program. Majority of which are EPI sites. However, before archiving these sites, I'd like to run the list by you folks. Please inform me by April 21, 1995, of any site on the attached list that should not be archived at this time due to the possibility that the site may warrant further investigation or remedial action under the federal Superfund Program.

If you have any questions, please feel free to contact me at extension 0323. Thanks!

Attachment

cc: Debbie Flood, SES

**From:** MARIA TARTAGLIA (MTARTAGL)  
**To:** MROLLUDA  
**Date:** Thursday, April 20, 1995 9:40 am  
**Subject:** REQUEST FOR ASSISTANCE

Hi Monica,

Here's an update...

Two of the sites, ORD 99128 1460 (Bergsoe Metal Corporation) and ORD 00941 4673 (Technical Images), are state superfund. This was verified by Bruce Long. Question: Would this mean that it should remain in CERCLIS?

The RCRIS database was unable to recognize the following facilities:

1. AKD 99128 1262  
ARCO SAND DUNES LANDFILL STAGING AR

*archive per maria*

2. ~~ORD 98063 9223~~  
~~UNION PACIFIC RR RIGHT-OF-WAY~~

3. WAD 98098 0593  
RAMCOR OIL CO

*put on archive per maria*

4. WAD 98038 3707  
WEYERHAUSER CO ABERDEEN

*archive per maria*

Can you please verify the ID #s and check the status on these sites?

No further SF work is required for the rest of the sites and they can be placed on the archive list.

Thanks.

Maria
